

Francois Botha Life Guard CV. (9608265268087)

- Have been doing Life Guarding for 9 years now. This is my 10th year (2011-2020).
- I have been a Squad Leader for 6years.
- I am actively involve in my club and have been working with the first years from my second year up until my 5th year and every time I have the chance since then. I have helped where I can during our Moon Runs and other extra activities.
- I believe this club already do so much for the community during the festive season and I hope that with the help of my studies as a Project Manager and skills that I use on a daily basis in my work that I could help the club run as efficient as possible during the pro season and have yet another successful season.
