Member of committee 2018- 2020, Club Coach

I have a passion for all kinds of sport but especially water-based sport. As a homeschooler my child's sport is Nippers and surfing. That is how I got involved in 2015 with Nippers. With my sport physiology and physiotherapy background I try to produce the best exercise programs for the youngsters to be comfortable and competitive on the beach and in the ocean while having fun. MBSLC future lifeguards will have the best training possible with the expertise of instructors and coaches, and I am excited to be a part of this journey.

All documents and certificates are available on request.
